WHEREAS: Code Section 38-3-51(c)(1) vests the Governor with the power to enforce all laws, rules, and regulations relating to emergency management and to assume direct operational control of all civil forces and helpers in the state; and

WHEREAS: Code Section 38-3-51(c)(4) vests the Governor with the power to perform and exercise such other functions, powers, and duties as may be deemed necessary to promote and secure the safety and protection of the civilian population; and

WHEREAS: Code Section 38-3-51(d)(1) vests the Governor with the power to suspend any regulatory statute prescribing the procedures for conduct of state business, or the orders, rules, or regulations of any state agency if strict compliance with any statute, order, rule, or regulation would in any way prevent, hinder, or delay necessary action in coping with the emergency or disaster; and

WHEREAS: The Georgia Constitution, Art. IX, § 2, Para. III(c) grants the General Assembly the ability to regulate, restrict, or limit the powers of local governments by general law; and

WHEREAS: To ensure the public’s safety and prevent confusion, it is necessary for the State’s departments, agencies, and political subdivisions to provide a coordinated response to support the Governor’s emergency management rules, regulations, and orders; and

WHEREAS: Code Section 38-3-51(d)(2) vests the Governor with the power to utilize all available resources of the state government and of each political subdivision of the state as reasonably necessary to cope with the emergency or disaster, therefore providing the Governor with emergency authority over all resources of every local government of the State; and

WHEREAS: Code Section 38-3-51(d)(3) establishes the Governor's emergency authority over the operation of state departments and agencies by vesting the Governor with the power to transfer the direction, personnel, or functions of state departments and agencies or units thereof for the purpose of performing or facilitating emergency services; and

WHEREAS: To ensure the Governor is equipped with all resources necessary to respond to a public health state of emergency, the General Assembly has vested him with the option to delegate expanded powers to the Department of Public Health in such an event as Code Section 38-3-51(i) provides that the Governor *may* direct the Department of Public Health to coordinate all matters pertaining to the response of the state to a public health emergency; and

WHEREAS: Pursuant to Code Section 38-3-51(i), in Executive Order 03.14.20.01, I instructed the Department of Public Health to coordinate with the Georgia Emergency Management and Homeland Security Agency to take any action necessary to protect the public's health, including, without limitation:

- (1) Planning and executing public health emergency assessments, mitigation, preparedness response, and recovery for the state;
- (2) Coordinating public health emergency responses between state and local authorities;
- (3) Establishing protocols to control the spread of COVID-19;
- (4) Coordinating recovery operations and mitigation initiatives;
- (5) Collaborating with appropriate federal government authorities, elected officials of other states, private organizations, or private sector companies;
- (6) Organizing public information activities regarding the state's public health emergency response operations, including educating the public on prevention of the spread of COVID-19 based on Centers for Disease Control and Prevention's guidelines and the best scientific evidence available;
- (7) Providing special identification for public health personnel involved in this Public Health State of Emergency;
- (8) For all persons meeting the Centers for Disease Control and Prevention's definition of a Person Under Investigation ("PUI"), implementing a program of active monitoring, which may include a risk assessment within twenty-four (24) hours of learning that the person meets the PUI criteria and twice-daily temperature checks for a period of at least fourteen (14) days or until the PUI tests negative for COVID-19; and
- (9) Implementing quarantine, isolation, and other necessary public health interventions consistent with Code Sections 31-12-4 and 38-3-51(i)(2) or as otherwise authorized by law.

WHEREAS: Notwithstanding said broad instructions, the authority delegated to the Department of Public Health is subject to the limitations of Code Section 38-3-28(a), and such delegation did not lessen or relinquish the Governor's superior emergency management powers; and

WHEREAS: Georgia law grants the Department of Public Health other duties and authority for general and emergency disease prevention and control; and

WHEREAS: Code Sections 31-2A-4 and 31-12-4 vests the Department of Public Health with the power to segregate and isolate certain individuals with certain communicable diseases or conditions when said individuals' exposure to the general population is likely to endanger the health of others; and

WHEREAS: To ensure advance preparation for a public health emergency, the Georgia legislature has provided in Code Section 31-12-3(a) that the Department of Public Health may require vaccinations or other measures to prevent the conveyance of infectious matter from infected persons to other persons as may be necessary and appropriate, although this Code Section does not vest sole power in the department to do so and the rules and regulations promulgated by the Department to provide for the implementation of such measures during a public health state of emergency must be adopted pursuant to Chapter 13 of Title 50, the "Georgia Administrative Procedure Act,"; and

WHEREAS: Code Section 38-12-2.1 provides that in the event of a public health emergency, the Department of Public Health shall carry out certain investigatory duties relating to the identification of the illness or health condition, the source thereof, and infected or potentially infected persons, and shall promulgate rules and regulations appropriate for management of any declared public health emergency; and

WHEREAS: The Department of Public Health is also authorized to adopt and implement emergency rules and regulations pursuant to the provisions of subsection (b) of Code Section 50-13-4; however, all such rules, regulations, and emergency rules and regulations remain subject to the provisions of Code Section 38-3-51(i); and

WHEREAS: The various public health emergency related powers designated to the Department of Public Health are not mutually exclusive, and pursuant to Code Section 38-3-51, are subject to the Governor's own emergency management orders; and

WHEREAS: In addition to the limitations on agency authority during a state of emergency set forth in Code Section 38-3-51, Code Section 38-3-28(a) prohibits political subdivisions of the state from making, amending, or rescinding any orders, rules, and regulations as may be necessary for emergency management that are inconsistent with any orders, rules, or regulations promulgated by the Governor; and

WHEREAS: Local rules, ordinances, orders, or mandates that provide for any action more or less permissive than the recommendations and requirements of this Order will result in an incompatible outcome for the uniform response to COVID-19, therefore constituting inconsistency as Black's Law Dictionary defines "inconsistent" as lacking agreement among parts or otherwise not compatible with another fact or claim; and

WHEREAS: In accordance with Georgia law, the Governor has ultimate authority over the State's emergency management procedures because, while other agencies and political subdivisions of the State may be directed or authorized to develop and implement emergency management plans, rules, regulations, and emergency rules and regulations, Code Section 38-3-28(a) clearly provides that no such rule, regulation, or order may be inconsistent with the Governor's own emergency management directives; and

WHEREAS: In consultation with public health and emergency preparedness officials, I have determined that the following actions are necessary and appropriate to protect the strength of Georgia's economy and provide for the health, safety, and welfare of Georgia's residents and visitors.
